ABOUT ME

Passionate Information Technology student specializing in front-end web development. Skilled in building responsive and user-friendly interfaces using HTML and CSS. Currently focused on improving front-end abilities through hands-on projects and structured online learning — including the Elzero Web School curriculum — with the goal of launching a successful career as a Front-End Developer.

PROJECTS

Responsive Web Interface Using HTML & CSS

Live Demo
Source Code on GitHub

Built as part of the Elzero Web School course, this project demonstrates the implementation of a responsive web interface using semantic HTML and modern CSS. The layout includes multiple sections such as Pricing, Stats, Video, and Discount, and showcases skills in Flexbox, CSS Grid, and responsive design principles to ensure a clean, accessible, and mobile-friendly user experience.
